Okay, we'll plan for that. Should I set up the other discussion (Class II/I) through you, Al?

David and Michele, I am fine with focusing on the Round Mountain AE. We have set aside 3 hours and that certainly should give us enough time to do a thorough job on Round Mountain.

Thanks, Al

Al, unless you feel strongly otherwise, it may be best to defer the Class II -> Class I discussion to next week. Joel in my office will not be available Th and I would like to involve him. I think we could probably have an initial call and determine next steps. Let me know if that works. Thanks, David

Michele, YES. DOGGR would also like to prioritize the Round Mountain Aquifer Exemption.

We have set this up as a three hour meeting, but hope that it does not take that long.

I will get the answers on the teleconference/WebEx to you tomorrow afternoon.

The Inland District personnel will be here in Sacramento.

Thanks, Al

Good afternoon Al, Just following up on this email about our meeting for Thursday as far as the agenda and logistics. Please note I am out of the office tomorrow morning.

Thanks!

Michele

Subject: Accepted: FW: Round Mountain Aquifer
When: Thursday, May 05, 2016 1:00 PM-4:00 PM (UTC-08:00) Pacific Time (US & Canada).
Where: DOGGR HQ 801 K St, 18th floor teleconference room

Hello Al,

Thank you for sending this invitation. I wanted to follow-up with you regarding the agenda and logistics for this meeting. As I recall we were going to have two items on the meeting agenda – the Round Mountain AE, and the Class II to Class I discussion. I'd like to suggest that we reserve the first half of the meeting for the Round Mountain presentation, and the second half for the Class I to II discussion so EPA can log its consultants off after the Round Mountain presentation for the first hour or hour and a half. Would that be acceptable to DOGGR?

Second, we are going to have folks in separate locations and wondered if your video teleconference system would allow for sharing of the screen so that the Inland district's presentation can be viewed at our various locations, or if a webinar is a better option. Hopefully what we learn from this presentation can be used for the next one on Arroyo Grande! Please feel free to give me a call to discuss the logistics of this upcoming meeting.

Sincerely,

Michele
